PROFESSIONAL EXPERIENCE

SHOPIFY DEVELOPER & TEAM LEAD | IlmifyTech Agency

October 2025 – Present

- Develop and customize Shopify 2.0 stores using Liquid, HTML, CSS, and JavaScript based on project requirements.
- Build and customize themes, sections, blocks, templates, product pages, collection pages, navigation, and landing pages. Convert Figma designs into responsive Shopify storefronts optimized for desktop, tablet, and mobile.
- Troubleshoot Shopify theme, layout, responsiveness, and functionality issues and implement custom Liquid solutions. Lead Shopify development workflows, review code, guide developers, and coordinate project delivery.

FRONT-END DEVELOPER – SHOPIFY | Softvence

August 2024 – September 2025

- Developed and customized Shopify storefronts using Liquid, HTML, CSS, JavaScript, and responsive design principles. Customized Shopify themes, sections, page layouts, product pages, and landing pages according to design requirements.
- Fixed front-end and cross-device issues while maintaining clean, reusable, and maintainable code. Collaborated with the development team to deliver Shopify projects according to project requirements and deadlines.

PROJECTS

CAR RENTAL WEB APPLICATION – PRACTICE PROJECT

- Built a car rental web application using Laravel MVC, MySQL, and Blade.
- Implemented authentication, middleware, role-based access control, and CRUD operations.
- Developed car management, rental booking, date-based availability checking, and booking history.
- Implemented Eloquent relationships, rental cost calculation, dashboard statistics, and email notifications.

Ophi Studios

- Developed and customized a responsive Shopify storefront using Shopify 2.0, Liquid, custom sections, and responsive front-end development. Optimized Shopify theme code, images, assets, and page structure, improving performance and SEO scores from approximately 40% to 80–90%. Implemented performance-focused theme optimization, responsive improvements, and technical SEO enhancements.
